

## Video Verification

---

There is a communication requirement of our course that must be completed before applying for your white card.

This is a mandatory component of the course. No whitecards can be issued until this module is completed AND your paperwork has been submitted for processing.

You will be required to submit a **short video** after completing the other modules.

**In order for your video to qualify and be accepted you must be able to show your photo ID.**

### **THE SCENARIO:**

On your way to your work area, you see that high winds overnight have caused a large branch from a tree to fall onto a barrier around a deep trench. The barrier has collapsed into the trench.

The winds are still quite strong and there is another large tree in danger of falling onto nearby power lines.

The warning signs have fallen over and the area is a general mess with a lot of debris around. There is a growing number of onlookers milling around the site.

List five (5) hazards and risks that are present

### **YOUR TASK:**

Pre-study the scenario and prepare a verbal report regarding 5 hazards and risks

Your answers may include such things as:

- No barriers to prevent access to the area.
- Trench is now uncovered – people may fall into the trench – risk of injury.
- The dangerous area is not clearly identified – people may fall into the trench – risk of injury.
- Can't read signs because they have fallen over – people/workers may be unaware of the dangers – risk of injury.
- Branches and collapsed barriers cause a trip hazard – risk of injury.
- Possibility that power lines may come down – risk of electrocution/shock.
- Sharp or dangerous objects may be hidden under leaves or other debris from the wind – risk of injury or harm from the objects.
- Onlookers may be at risk – growing crowd may attract more onlookers.

**Videos should be no more than 40 seconds in length. Ensure you use the following script – this is the only information required in the video.**

*My name is (First and Last Name), my date of birth is (date, month and year) and I live at (Australian residential address).*

*My online account username was (username) and my password was (password).*

*I am now showing my photo ID. (PLEASE SHOW A CLOSE UP OF YOUR PHOTO IDENTIFICATION ENSURING THE PHOTO, NAME AND DOB CAN BEEN SEEN CLEARLY)*

*After reading the scenario I have identified the following five hazards/risks:*

- 1.
- 2.
- 3.
- 4.
- 5.

*Thank you*
